

Business Management Center (BMC) & Quickbooks Bridge

The WashCard System has an intuitive web-based software interface called the Business Management Center (BMC) to administrate all of the WashCards, accounts, reports, and promotions. The BMC is accessed using a unique login and password on a secure, private website from any computer with an Internet connection.

BMC Functions

- Assign and manage WashCards to prepaid or fleet customers
- Edit Customer Account information (card balances, time schedules, names, etc)
- Edit service prices & display messages
- Run transaction reports, summary reports, card reports, etc.
- Send email statements to prepaid customers
- Generate batch statement reports for invoicing
- Manage promotional tools (Spending rewards, birthday washes, discounts, etc)

WashCard QuickBooks Bridge

Customers that do their bookkeeping on QuickBooks can have the option to use QuickBooks Bridge. This program eliminates the need for double entry between WashCard and Quickbooks, making your accounting and booking much easier and less time consuming. Also, your Fleet Account invoices can be imported directly into QuickBooks to generated invoices— so all you have to do is print and mail them!
