

Credit Card Processing

WashCard Systems offers premier high-speed credit card processing that provides the lowest credit card processing rates in the wash industry. By clearing transactions at the time of purchase via a high-speed Internet connection, credit card fraud is greatly reduced, thus eliminating troublesome and costly charge back fees.

Why WashCard Systems for your credit card acceptance?

Non-proprietary, high-speed credit card system. **High-speed connections** clear transactions in less than 3 seconds & WashCard can be integrated with multiple manufacturer's equipment.

Transactions cleared at time of purchase. Clearing right away greatly reduces fraud & keeps rate low—increasing profits. WashCard also bundles transactions of the same credit card into one transaction, leaving only ONE transaction fee.

Choose your own processor. WashCard does not have a mandatory processor fixed credit card processing rates, or contracts to drag you down.

Same credit card reader accepts Fleet & Gift cards. Fleet and Prepaid cards have much lower transaction fees (only 7 cents!) than credit cards and establish customer loyalty.

Online Sales. Add to your revenue stream with online credit card sales. With a WashCard Virtual Storefront added to your website, WashCards can be purchased & recharged with credit cards. Fleet customers can pay their invoices online as well as fully manage their account.

Complete web based reporting package. Breaks down activity to show averages, trends, and usage by location and service.
