

Custom Website

Some ideas to include in your website:

- Photos of your Wash
- Price & Services Menu
- Business Account Information
- Fundraising Information
- Location Map & Directions
- Contact Us Form
- Contact information
- Coupons

Promote your wash with a new website!

Promote your wash, inform your customers, and generate more business by adding a website and a customer account portal (CAP)! Customers can make payments online through our secure credit card processing and feel safe about their information. Adding pay by phone allows them to manage everything on their end while getting discounts or loyalty rewards for visiting your wash.

WashCard Systems' design team specializes in car wash websites. Your website will be completely customized to match the look and feel of your WashCards and car wash. We do the work to ensure your brand is consistent and makes an impact to your customers. We help take the hassle out of web sites so you can focus on your business and customers.

The website is a great way to start getting recognition to your wash. Show up in Google searches more often and link directly to any of your social media platforms. With the ever changing needs of your customers, your website is the best way to communicate and get your car wash name out there.

Don't wait, get your website started today!
