Pay from your phone!

Pay by Phone is a new feature that allows customers to use their smartphone to pay for their washes. It will help get customers washing faster; it's easier and more convenient for them, while at the same time keeping their financial information safe and secure.

How does it work?

To use Pay by Phone, customers can create an account and store a payment card, or pay as a guest. Once registered, they can scan the QR Code at any of your Pay by Phone wash services, select their wash package or price, confirm and activate!

Upsell at your locations.

With Value Packages, you can steer your customers into spending more by offering them more bang for their buck!

Collect and export marketing data.

Once your customers create their accounts, which include email and phone numbers, you can export the information and use services like MailChimp (email) or Mozeo (text) and reach out to your customer base.

The setup process, step by step:

- Open QR Scanner app and taps the link on the screen.
- Create an account using Facebook, Google+, Pay by Phone or use guest account.
- Prompted to add a card. Enter credit card information to make payments.
- Pay by Phone is now ready.

The wash process, step by step:

- Park near/at wash service
- Bring up Pay by Phone for payment.
- Scan the QR code with a smart phone camera.
- Select Wash Package & confirm.
- Once a transaction is complete, the wash service will start right away.
