

Baystation

**COIN, CASH, CREDIT,
LOYALTY, AND
MOBILE OPTIONS!**

Give your customers every option.
Provide loyalty incentives using mobile or cards.

A leader in card activation technology since 1990, WashCard Systems is a provider of cashless payment systems for the car wash industry. WashCard increases profit potential by making it easier to capture new business and reward repeat visits with a wide variety of customer loyalty programs, frequency reward programs, business-to-business programs, and e-commerce.

The Baystation replaces outdated meter boxes with a state of the art solution for your self service bays.

DISCOUNT!**

**12 INDEPENDENTLY
PRICED SERVICES!**

Baystation Key Features & Dimensions

A colorful 7" screen to guide your customers through transactions, multiple payment options, including mobile payments, and multiple price point promotion options. It makes the Baystation a great draw and asset for your business.

Operators will find ease of use in the tools and services included in the Baystation. Minimize shrinkage and keep track of who opens the cash door with our Advanced Cash Collection and audit tools. Remotely activate services for customers and avoid paying out a refund.

Included is an internal theft alert system that can be connected directly to your existing alarm system. Also, if triggered, the Baystation will automatically send the operator a text message, alerting them the cash box has been opened without using an employee card. Protect your investment and income from both external and internal threats.
