

Card Dispenser & Recharger (CDR)

A leader in card activation technology since 1990, WashCard Systems is a provider of cashless payment systems for the car wash industry. WashCard increases profit potential by making it easier to capture new business and reward repeat visits with a wide variety of customer loyalty programs, frequency reward programs, business-to-business programs, and e-commerce.

Accepts All Types of Payments - Including Pay By Phone

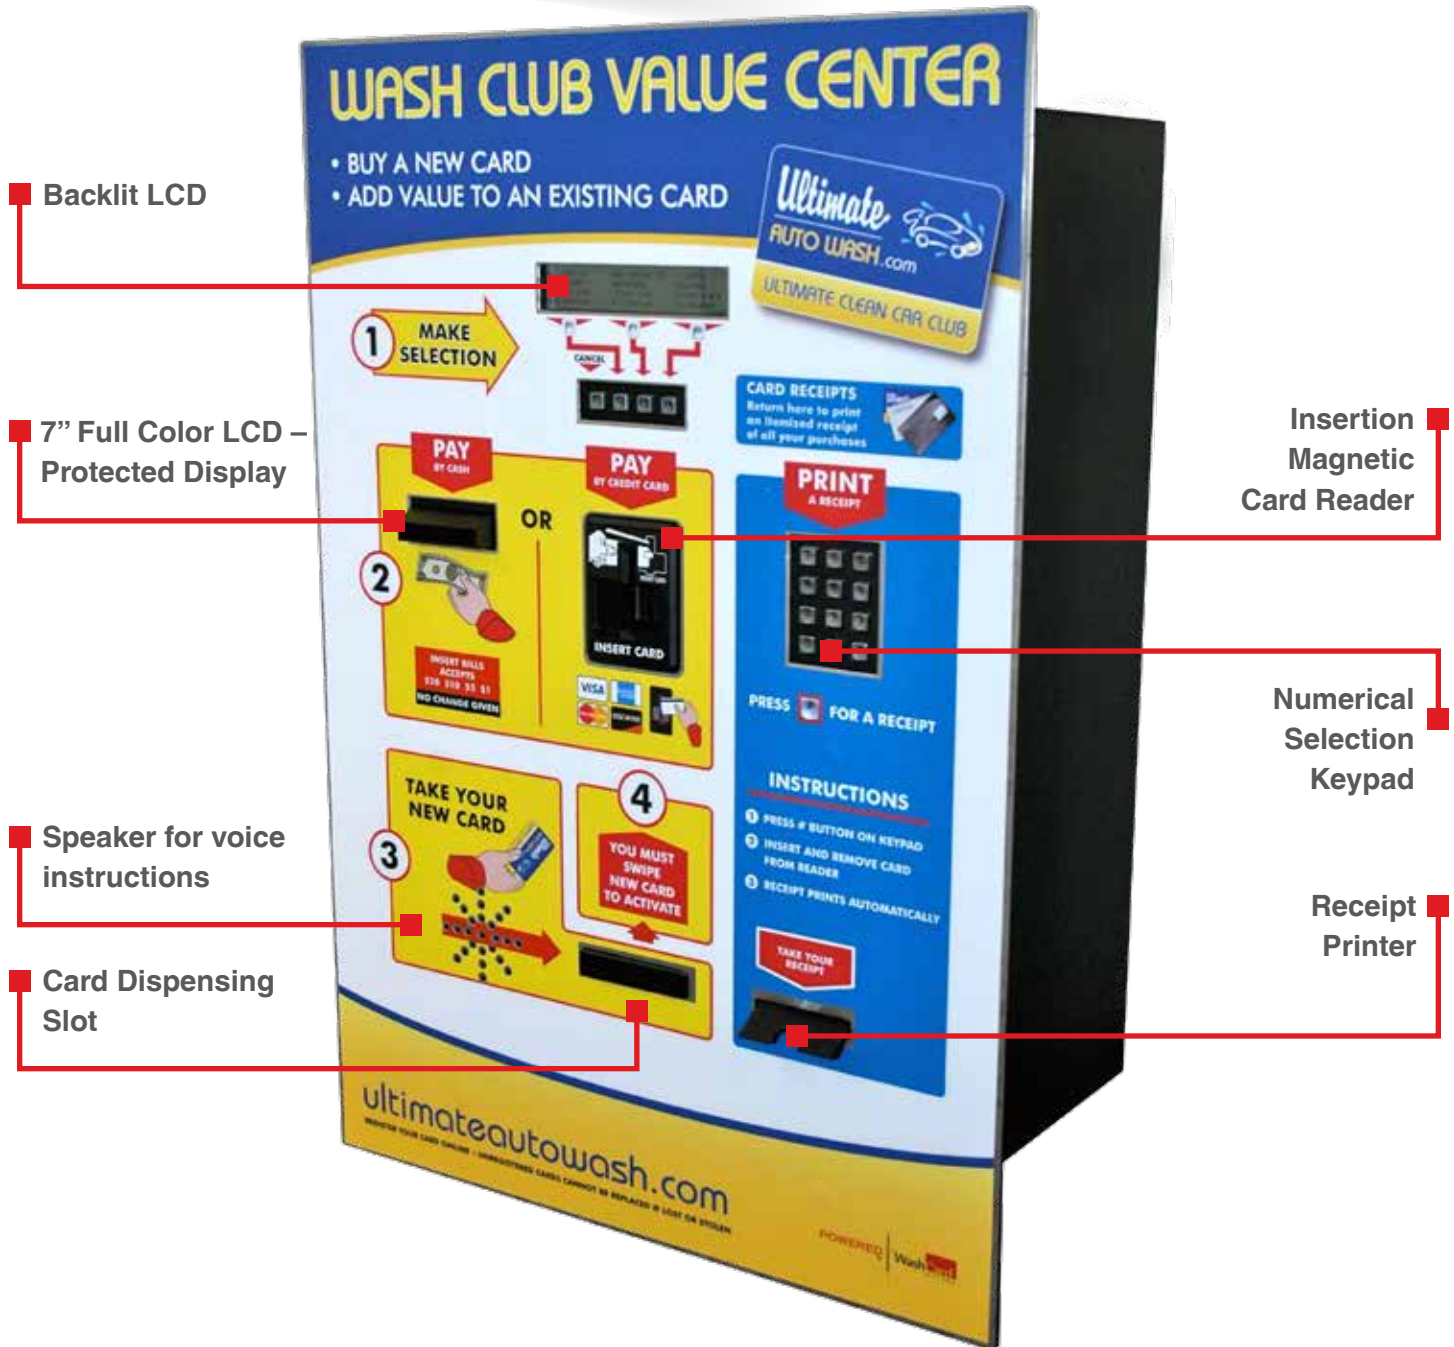

The Card Dispensing and Recharging Station allows for unattended management of prepaid customer loyalty cards. Customers can choose to purchase new cards as well as recharge existing cards using cash or credit cards. The CDR also provides itemized card receipts for customers onsite.

Voice prompts, a lighted LCD display, and a customized decal make the CDR easy to use for customers while also offering promotional tools for the wash owner. Also included is a receipt printer which prints out CDR purchases/recharges and itemized receipts for credit card use in the bay.

Built specifically for unattended self service businesses. Customers have the choice to buy a prepaid loyalty card and benefit from a variety of incentive programs.

- Sells & Recharges Prepaid Cards 24/7
- Accepts Cash & Credit Card
